

GUILTY

Verdict in the Post Office Cases.

Defendants are Thunderstruck by Finding.

JURY DELIBERATED FOR NINE HOURS AT WASHINGTON.

MACHEN, LORENZ AND GROFFS

All Are Released on Bond—The Cases Will be Appealed by the Defendants.

Washington, Dec 27—(Bulletin)—Machen and Lorenz and Diller B. Groff were today each sentenced to two years' imprisonment in the penitentiary at Moundsville, W. Va., and to pay a fine of \$10,000. Their sentences are to date from the time of their arrival at the penitentiary. Samuel A. Groff has a motion pending for a new trial. Judge Kumler, Dr. Lorenz' attorney, made an eloquent appeal for him.

Washington, Feb. 27.—"Guilty as indicted" was the verdict announced by Carl Peterson, the foreman of the jury in the now famous postoffice conspiracy trial shortly after 8 o'clock last night, stating at the same time that this was the verdict as to all four defendants, August W. Machen, late general superintendent of the rural free delivery division; George E. Lorenz, of Toledo, O., and Samuel and Diller Groff.

The jury had been out nine hours, although the verdict was reached in eight hours and 25 minutes.

In the dimly lighted room sat the four defendants, who, after the case was given to the jury had been placed in the custody of the United States marshal and confined to the limits of the city hall. Each wore an anxious look and a deathlike silence fell upon the small crowd which had been permitted to enter the room as the clerk inquired of the foreman if a verdict had been reached. With impressive dignity the jury as to a man rose and the words "guilty as indicted" fell from his lips the defendants and the counsel seemed appalled.

There was very general astonishment that the jury had included in the conviction Samuel A. Groff, the Washington policeman and inventor of the Groff fastener, as Mr. Holmes Conrad, special counsel for the government, had informed the jury he did not expect a conviction and he personally did not believe in his guilt.

Five ballots in all were taken. On the first ballot the vote stood 7 to 5 for conviction, on the second 8 to 3, on the third 9 to 3, on the fourth 10 to 2, and on the fifth the vote was unanimous.

Immediately after the verdict was rendered Charles A. Douglas, in behalf of all four defendants, filed motions for a new trial for an arrest of judgment and also for an appeal for the purpose of having the defendants admitted to bail. Bail was then fixed

at \$20,000 each, the bond of Lorenz and the two Groffs being increased from \$10,000 to that sum. When Mr. Maddox on behalf of the Groffs inquired as to the amount of bail to be required of them Justice Pritchard said: "I know no difference between these defendants. The jury has said they are guilty and I cannot discriminate but will treat all alike."

Next to Samuel A. Groff, the most surprised man was Machen, who said he was thunderstruck at the verdict.

Throughout the day Machen's father, mother, two brothers, uncles and two sisters remained about the court house as also did Mrs. Lorenz and Diller F. Groff, son of Diller B. Groff, but with the exception of Machen's uncle and one brother none of them was present when the verdict was announced.

The four defendants will appear before Justice Pritchard today to receive their sentences, which action is necessary upon which to base a motion for a new trial and an appeal.

Machen, after the verdict, had nothing to say and seemed utterly crushed.

Bail was furnished for each of the four convicted men, the sureties being the same as on the bonds for the amounts fixed prior to conviction and the defendants were released from custody.

ARMY OF 17,000 TRAINED MEN

Joins Forces of the Mikado Against the Czar—Wiju is Opened to Foreign Trade.

Seoul, Feb. 27.—The Korean government has decided to order the Korean troops to join the Japanese in the field.

The port of Wiju was opened to foreign trade last Thursday night.

The limitations to be placed on trade and other incidental matters will be passed later. This action necessitated a harbor, so Yongsampo has been decided upon.

The Statesman's Year Book for 1903 gives the following details of the Korean army:

The standing army now consists of about 17,000 men, with European methods. In 1895 it was taken in hand by a Russian colonel with three commissioned and ten non-commissioned officers, who retired however, in 1898. A royal body guard of 1,000 men was formed and has been well drilled, and periodically a draft of well-trained men is transferred from it to the other regiments of the standing army.

THE FRENCH POSITION.

Paris, Feb. 27.—The French foreign office categorically denies the report published in a London paper that Korea, having become the ally of Japan, under the new Japanese-Korean treaty, France is thereby required to become the active ally of Russia. The officials say the situation does not warrant such a conclusion, and adds that the new treaty does not make the slightest change in the position of France.

JAP-KOREAN ALLIANCE.

Washington, D. C., Feb. 27.—The Japanese Legation has received from Tokyo the text of the treaty negotiated between Japan and Korea, by the terms of which the former government "Guarantees the independence and the territorial integrity of the Korean empire."

The treaty was negotiated February 23, at Seoul.

INDORSE ROOSEVELT.

New York, Feb. 27.—The Republican state committee went into session at the Fifth avenue hotel at 10:20 o'clock this morning. The session lasted only ten minutes. It was voted to hold the state convention for the election of delegates to the Republican national convention at Carnegie hall in this city April 12. A strong resolution endorsing President Roosevelt's re-nomination was unanimously adopted.

Out of 250 automobiles in the annual exhibition in New York City 59 were electrical and 175 gasoline.

BITTER FIGHT ON SPRING ELECTIONS

Senator Houck of Mt. Vernon, Halts Senate in Its Course—Election Bill Set for Tuesday.

Columbus, O., Feb. 27.—Vigorous opposition against the rushing through of the Chapman bill to abolish spring elections, on the senate calendar for third reading, resulted in its being postponed and made a special order for 2 p. m. Tuesday. It will be strongly opposed.

Senator Houck, of Knox, Democrat, led the objection, charging that it was a Republican party measure and was being railroaded through without the senate having been put in possession of the full facts. In this he pointed to the Ricketts resolution providing for a constitutional amendment for separating state and municipal elections.

This resolution, Houck insisted, was not understood in its relation to the bill at hand. It was incomplete and contradictory and whether it would carry out the plan proposed he was seriously in doubt. He demanded that the senate refrain from forcing the Chapman bill through.

The postponement of final action on the bill developed the fact that the Ricketts resolution was in fact defective and that a substitute resolution is to be offered next week. This is now in course of preparation.

Among the points wherein it will differ from the pending resolution is a specific provision that the state board of public works shall consist of three men.

The governor will be empowered to fill by appointment all vacancies that may occur at any time in the offices of state treasurer, secretary of state, or attorney general or any of the judgeships.

Terms of supreme judges ending February 9 in the years 1906-7-8-9-10-11, will be extended to January 1 of the succeeding year and terms of circuit court judges ending February 9 in the years 1906-7-8 will be extended respectively to the first day of January, 1907-9-11.

BILL PASSES

House Takes Action After a Week's Debate—Matter of Armor Plate Left to Secretary.

Washington, Feb. 27.—The House passed the naval appropriation bill, after having had it under consideration for a week. There was a party contest on a number of propositions during the day, especially on an effort of different minority members to secure an amendment to fix the price of armor plate at the figure bid by the Midvale Steel company. Several amendments were ruled out on points of order, and the Republican leaders by skillful parliamentary tactics left the matter of armor plate to the discretion of the secretary of the navy. An ineffectual attempt was made to have the eight hour law applied to all ship construction.

The contest over submarine boats was quite exciting and an amendment finally was adopted which leaves the question of the type of boat open, but increases the amount of the appropriation for such boats. The minority failed to secure a record vote on the proposition to recommit with instructions, the proposed instructions being declared out of order.

FIRE

Destroys Capitol Of Wisconsin.

Loss of \$800,000 Today At Madison.

FACTORY FIRE IN NEW YORK

Today's Estimates on the Rochester Losses and Insurance—House Burned at Coshocton

Madison, Wis., Feb. 27.—Fire at 3 o'clock this morning starting from crossed wires or from a burning gas jet in a toilet room completely gutted Wisconsin's beautiful capitol building, causing a loss of \$800,000. The insurance was only \$6,000. The fire was not discovered until it had gained considerable headway, and virtually burned itself out as the local fire fighting machinery was unable to make much headway against the progress of the flames. Aid was summoned from Milwaukee, but arrived too late to be of pertinent service.

The fire involves the building of a new capitol, a special session of the legislature and the probable renewal of the agitation in favor of the removal of the capitol from Madison to Milwaukee.

The flames ruined the east and west wings, containing the senate and assembly chambers, and the departments of the tax commission and other departments and were about to attack the departments of the governor, secretary of state, state board of control and the insurance commissioner.

At 8 o'clock the flames were bursting from the window of the north and south wings, the east and west wings having by this time been destroyed. Practically all the valuable state records are believed to be safe. Most of them remain in masonry and steel vaults in the ruins and their safety depends on the extent of the fire proof character of the vaults. The state treasurer had only \$8,000 in cash on hand.

Ex-Governor Schofield maintained insurance on the building throughout his term, of \$600,000, but the last legislature instituted an insurance fund and directed the state's officers to allow the insurance policies to lapse.

The capitol was built at a cost of \$1,000,000. Soon after Governor La Follette reached the scene he directed the work of removing the records from the various offices. Students of the Wisconsin university were enrolled to aid in the work.

NEW YORK FIRE TODAY

New York, Feb. 27.—Fire this morning destroyed the five story factory building at Nos. 858 to 877 Washington street, entailing a loss estimated at \$125,000. The building was occupied by the Pincus Manufacturing company, the New York Knitting mills and by numerous produce merchants.

THE ROCHESTER FIRE.

Rochester, N. Y., Feb. 27.—A mass of ice coated ruins from the heart of

which smoke and steam is still rising as streams from a dozen lines of hose are playing upon it, the spaces where formerly stood business houses whose annual transactions totalled millions of dollars and furnished employment to thousands, ice-covered streets and a fire department practically worn out by more than 30 hours' continuous work—that is what today shews to make more vivid the recollection of the most disastrous fire in Rochester's history.

The value of the property involved is \$3,802,500. Total loss \$2,935,750. Total insurance \$2,300,250.

The fire itself engaged so much attention that even those most intimately concerned have had but slight opportunity to devote to the consideration of the resumption of business. In a general way it may be stated that all of the burned out concerns will resume operations as soon as practicable.

FIRE NEAR COSHOCTON.

Coshocton, O., Feb. 27.—Fire consumed the home of Daniel Neely, a miner, near here, this morning, while Neely was at work and his wife at a neighbors. Their 20 months old baby was asleep in the house and was rescued by the mother dashing through the flames. The roof fell in just as she reached the child and both are perhaps fatally burned.

PANIC

Seizes People of Scranton Due to Ground Settling.

Scranton, Pa., Feb. 27.—The settling of the surface in the Bellevue section over the old mines, which wrecked a dozen or more houses yesterday, continues today. The situation is still more alarming. The home of S. Taylor took a dive westward this morning. So sudden and so quickly did the drop occur that the piano slid all the way across the room and other furniture not on wheels also moved about considerably. Six more houses were affected this morning and there is danger of some of them toppling over at any moment. The people are panicky-stricken.

Delaware—Henry Wornstaff, of this county, received news of the death of his son, Archie, aged 22, at Omaha, Neb., where he was employed in a big packing house.

Barnesville—William Bond, aged 52 years, a prominent citizen of the Morristown neighborhood, is dead of blood poisoning, the result of being kicked on the hand by a cow.

NEGRO

Was Taken Away in Time To Prevent a Lynching.

Bluefield, W. Va., Feb. 27.—Jim Robinson, the negro, who was found under a bed in the home of M. M. Reynolds Thursday night, was taken to Princeton, the county seat, for safe-keeping. The people here, not knowing this, formed a mob, went to the jail and demanded the prisoner at a late hour last night. Chief of Police Burnett showed a committee from the mob through the jail, convincing them that the prisoner was gone. Had he been in the jail he would have surely been lynched.

DAY'S REPORTS CONFLICTING

Alexieff Says Battleship Retvizan Sank Two Japanese Destroyers—Latest War News

London, Feb. 27.—Baron Hayashi, the Japanese minister in London, today gave out the following telegram from his home government giving additional details of the attempt to block the channel at Port Arthur by the sinking of merchant vessels. The telegram follows:

"Tokio, Saturday, Feb. 27.—Vice Admiral Kamimura reports as follows: According to a report from the torpedo flotilla, which accompanied the steamers sent to Port Arthur with the object of blocking the entrance to the harbor, the Hokoko Maru blew up and sank close to the foot of the lighthouse on the left side of the harbor entrance; the Bushu Maru alongside the former; the Tien Tsin Maru and the Bujo Maru blew up and sank at the eastern side of Laotefan. The Jansin Maru was also blown up and sunk. The officers and crew of the steamers were all taken off by our destroyers. Our destroyers and torpedo boats are all unharmed. During the night of February 24 our destroyers' flotilla made a scouting attack on Port Arthur, Dalny and Pigeon Bay. On the morning of February 25 our fleet made for Port Arthur and bombarded the vessels and fortresses at long range. At midday the Novik, Askold and Bayn were seen fleeing toward the inner harbor. By this it seemed that the blocking of the harbor had not been effectively done, whereupon our fleet bombarded the inner part of the harbor and caused there a violent outbreak of fire. After a quarter hour engagement we withdrew. During this bombardment our cruisers destroyed one of the enemy's destroyers, but no damage was sustained by our vessels. I have no casualties to report."

THIS IS DIFFERENT.

Washington, Feb. 27.—(Bulletin)—Minister Griscom at Tokio in a cablegram to the state department confirms the report that the Japanese were unsuccessful in their attempt to block the mouth of Port Arthur harbor, as three Russian vessels have come out of the harbor since the attempt was made.

LEAVES SOME DOUBT.

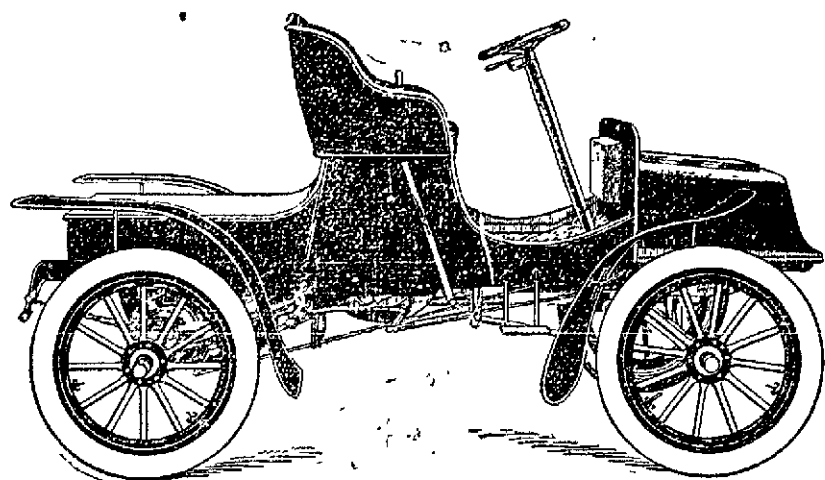

Tokio, Feb. 27.—An official statement regarding the sinking of the Japanese vessels at Port Arthur on Feb. 24, in an attempt to block the channel was obtained today. The statement is most indefinite and leaves as much doubt (Continued on Page 7.)

Miss Ida Livingston, Who Attempted
to End Her Life is Now Slowly
Recovering.

Miss Ida Livingston, the young Newark girl, who attempted to end her life on Saturday night, January 23, by drinking a considerable quantity of carbolic acid, because she imagined William Millhaugh, a young B. & O. railroad caller, with whom she was infatuated, had transferred his affections to another, is now reported as slowly recovering. Ever since she attempted to take her own life she has been lying in a very precarious condition at the home of her sisters, Mrs. Emma Frazier, 127 East Main street. She has so far recovered, that today she was able to be removed in an ambulance to the home of her mother, Mrs. Eli Hissong, 410 Woodside.

All the state officers and many visiting brothers will be here to take part in the ceremonies. The committee on banquet was ordered to get up another one of those pig roasts for which the tribe is famous. Hay Makers' Council No. 52 received a communication from the Crookville brothers, inviting our team to come down and institute a Hay Maker's council in their tribe. The invitation was accepted and it was decided to make the trip some Saturday night in the near future. All brothers who possibly can should attend the meeting of the tribe from now on as they will be very interesting and entertaining for we are adding many new members and have work in the degrees every meeting night after which light refreshments are served.

"Which is the correct report of that Chicago accident?" said a man to The Advocate today. "The Advocate reported that one man was killed and one seriously hurt, while one of the Columbus papers last night under immense headlines said that 15 men had been killed by the fall of scaffolding at the Chicago postoffice building."

The Advocate's report was correct. A bulletin received at this office first reported 13 killed, but the details which followed showed that only one man had been killed.

"I Should Feel Guilty If I Should Let Him Slip Away."

We Little Know When Consumption May Be At Our Own Threshold.

I read the article from Sunday to Sunday, simply because it was interesting and because I felt convinced that consumption could not be cured. I did not think then that I should ever call upon that same Frederick Hammann for advice, but I now feel that I should like to have your advice upon this case.

A young man whom I have been brought up with since my childhood, and who is as dear as a brother to me, has developed symptoms of that most terrible disease, consumption. About a year ago he had a very severe spell of rheumatism. He could not move himself.

When he became able to be around he was bothered with a cough and his lungs became sore and very weak. He now coughs and raises a great deal. The spittle is white.

He has been working in a bakeshop at night, and is obliged to sleep in the daytime. He wakes up to find himself in a heavy sweat, which leaves him weak. Towards night he feels worn out and tired and is bothered with headache.

Please write and tell me what you think of his case. I should certainly feel guilty if I let him slip away into his grave without trying to help him, or at least get some advice for him.

He is only twenty-one years old and without any relatives who could help him. His mother died with consumption, so I suppose he has inherited it from her. He is a poor boy, who has to work for every cent he has, so you see he cannot afford to buy useless medicines. But, if you think Professor Hoff's medicine would cure him, I will try to get it for him.

Will you kindly send me information as to the home cure, and I shall be greatly indebted to you. Hoping to hear from you very soon, I am,

Yours respectfully, Mrs. Nora Bessbacher,

310 Wheeler Street, Three Rivers, Michigan.

This letter has been received by Frederick Hammann, the first American patient of Professor Hoff, cured of consumption in 1899.

He was selected as presenting the best case of pronounced consumption in the New York Clinic, by a committee of able physicians and scientists, and was sent to Vienna at the expense and under the auspices of one of the best American newspapers, the New York "Journal," to prove the truth of Professor Hoff's claim.

His cure was effected permanently in four months, but by the injunction of Professor Hoff he kept on taking the remedy for one year.

On his return to America, Hammann, by his own choice, became connected with the American Bureau of the Professor Hoff Cure for Consumption, established at that time. His cure was first a marvel to American physicians and scientists, and then was hailed as the light by which all sufferers from the dread disease might set their courses to a certain delivery. Mr. Hammann has since had his life insured by the New York Life Insurance Co. and has been accepted as a first-class risk.

Hammann tries, as a self-imposed task, to answer every letter that is sent to him. Having gone through the dreadful experience himself, he makes it the purpose of his life to aid in saving the lives of others.

There is every reason to believe that the patient described, if he follows closely the simple home treatment prescribed by the American Bureau, and takes the Professor Hoff Cure for Consumption, may recover from the malady in exactly the manner that hundreds of others just as desperately situated have recovered during the past year.

Professor Hoff desires his cure to be in the hands of every sufferer. It is humanity's medicine. The prescription is compounded in accordance with Prof. Hoff's directions and sent out by the American Bureau at Third Avenue and 10th Street, New York, at \$1.00 per bottle. For greater convenience the remedy may be had at the same price from the well and favorably known firm mentioned below.

The triangular trade mark of the American Bureau of Professor Hoff's Cure must be on the label, and this is the guarantee to the purchaser that it is the exact prescription used by Prof. Hoff at Vienna.

A 64-page book, containing complete descriptive treatise on the Professor Hoff Cure, and accurate reports of several hundred cases, is mailed free on application or may be obtained by calling at these well known druggists.

IMPORTANT.—Other Hoff cures not bearing this triangular trade mark are not the authentic preparation authorized by the American Bureau. You can obtain the genuine Hoff Cure at most drug stores. The great body of honorable druggists do not stoop to substitution by selling something "just as good" that means more profit to them. The genuine Hoff cure can always be procured of the well-known druggists.

That war produces consequences that are entirely unlooked for is illustrated in the threatened camphor famine. The bulk of the world's supply of camphor comes from Formosa, a Japanese dependency. As camphor is used largely in the manufacture of explosives it behooves Japan to husband her resources in that valuable commodity. Hence there has already been a rise in the price of camphor of more than 300 per cent. Compared with this the rises in wheat and other commodities since the Russo-Japanese war started are infinitesimal.

A Most Damnable Outrage.

The Republican proposition to abolish spring elections is not meeting with popular favor. It is condemned by men of all parties whose opinions are not influenced by machine politics. Among those who denounce the measure to abolish spring elections is Dr. Washington Gladden, a Republican member of the city council of Columbus, and one of the most eminent divines in the state. He emphatically denounces the proposed measure in an open letter to the Ohio State Journal. In his denunciation Dr. Gladden's contention is that it makes the election of municipal officers dependent entirely upon the state or national issues. He says in part:

"It is an outrage upon free citizenship—the most daring and damnable outrage that has been proposed since I have lived in Ohio. And the party which puts the thing through may make up its mind to encounter the indignation of every man in the state to whom the interests of better city government are dear."

The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. AHEAD OF TIME

Young Woman From Newark Waits Patiently for an Interurban Car to Take Her Home.

She rushed into the street car waiting room one afternoon a day or two ago, tossed her grip on the bench sat down beside it and with a sigh of relief like a person who has arrived barely on time commenced to arrange her hair, says a Zanesville paper.

The handsomely dressed young woman from Newark, who is the sister of a well-known newspaper man of Zanesville, watched her car arrive and depart from the station without making any sign that she desired to board one of them. The conductors noticed the arrival of each car until every line had been called. Still the passenger, who had by this time regained her breath, kept her seat.

The attention of the attaches of the office was aroused. After waiting about half an hour, the young woman walked up to the cashier's window

and inquired, "When does the next car leave for Newark?"

"In about two weeks," was the polite reply. Her astonishment can be imagined. Hastily recovering herself, the would-be passenger exclaimed that she had missed the B. & O. train because of her long wait at the station. With that she gathered up her packages and hurried out.

SUDDEN SHIFTING

On the Checkerboard of Ohio Republican Politics—Dick as the Successor of Hanna and the Recognition of George B. Cox as Grand Mogul in the State Party Organization.

Columbus, O., Feb. 27.—The sudden shifting of men that has taken place on the checker board of Ohio Republican politics since the funeral of Senator Hanna leaves one tall figure athwart the horizon. It is the sparse and sinewy figure of Charles F. Dick. Strenuous efforts have been made to minimize the real significance of General Dick's victory. Soft soap has been so plentifully applied to some of his associates as to disguise, if not obliterate them. On the one hand, it is declared by the Republican organs that Governor Herrick has made a great "sacrifice"; that he has declined something which constituted the goal of his ambition and was readily within his grasp—in a word, that he has thrust away the crown all for the love of the dear old Republican party and incidentally for the benefit of the aforesaid Dick. On the other hand, it is alleged that Boss George B. Cox has been equally good to Dick and consented to let him have the senatorship on condition that he, Cox, shall henceforth be the Grand Mogul of the Republican organization.

All this talk sounds very well and places some eminent Republican statesmen in a very favorable light before the members of their party, but the fact is that from the moment of Senator Hanna's death Dick held command of the situation. When others now consent to his taking the senatorship it is simply because there is no other course left for them. The Republican organization is a Dick organization and was even before Hanna's death. It was used for Senator Hanna only when Dick decreed that it should be. He could have employed it to defeat Herrick's nomination for governor and accomplish his own nomination if he had wished to do so. Through this organization there is no question that Dick would have controlled against all opposition enough members of the Republican majority in the legislature to make him the caucus nominee for senator. If Governor Herrick gracefully yielded to the inevitable it was because there was nothing else to do. If Cox did likewise it was for the same reason. The truth is that these gentlemen stepped aside only to avoid the unpleasant consequences of being run over.

Herrick and Cox will make a great mistake if they delude themselves with the idea that Dick will henceforth be content to remain an ornamental quantity in the Republican procession. If either of these gentlemen aspires to be the boss of the Republican party in Ohio he is destined to be grievously disappointed. Dick does not propose to let go of the organization in exchange for the support he is now receiving for senator. Once firmly seated in the upper branch of congress for seven years, he will do a little

bossing himself. Herrick and Cox will find this out in due time, and one J. B. Foraker will also be made aware of it. Dick is a positive quantity; he doesn't know how to be an ornament. The senatorship will clinch his power in Ohio and he will succeed Hanna in all wars as a boss. Governor Herrick and Boss Cox are flattering themselves that this is not the case but after the senatorial affair has been closed they will not be able to deceive themselves any longer.

This power of Dick is not because he is a statesman, but simply because he is a skillful political machine boss. As a member of congress Dick has taken no rank for eminence in any regard, neither on the floor of the house nor in committee. As a senator he will be the most mediocre of any man ever sent from Ohio.

It would be no surprise now to find Governor Herrick on the national ticket as Roosevelt's running mate. This event is much more probable since the death of Senator Hanna than before that event. Some estimable persons are now engaged in an effort to swell Governor Herrick's head by mentioning him for president in 1908. If he should have the good fortune to serve two terms as governor, both will have expired before the national Republican convention of that year meets. It should be needless to say that the national conventions of neither party are in the habit of nominating ex-governors for president. Herrick's chance for further promotion lies right now in the direction of the vice presidency.

Escaped an Awful Fate.

Mr. H. Hains of Melbourne, Fla., writes, "My doctor told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by Hall's drug store. Price 50c and \$1.00. Trial bottles free.

JOHN HAY, SECRETARY OF STATE.

John Hay's action in successfully urging Russia and Japan to limit their sphere of hostilities and to respect the "neutrality and administrative entity of China" has made him one of the world's most conspicuous diplomats. Secretary Hay has not wavered a moment in his struggle for the open door in China and against the partition of the Chinese empire, the same fight Japan is now making, but in a different manner.

Mothers and Daughters

Every woman who has a grown daughter knows well the worry and anxiety which always comes at that period of life when girlhood merges into womanhood. Upon a girl's condition at this time depends her future health, strength and happiness. Too much care can not be taken to see that the passes through this period safely.

AUNT DINAH'S OLD VIRGINIA

Herb Tea

A BOON TO WOMANKIND

One of the greatest assistance to nature in bringing about the change which takes place, without distressing the natural functions of the system. It is a strengthening tonic. It will loosen the ties of a girl's cheeks and prevent that tendency to decline which so often endangers her life at this critical period in development. This Herb Tea is likewise of corresponding value and assistance to matrons and mothers at the end of this period. Its use will at this time prevent undue pain and worry. A woman will enter the evening of life with scarcely the knowledge that the change has occurred. Many are the thankful women who know the value of Aunt Dinah's Old Virginia Herb Tea and are grateful for the benefits derived from its use.

WILLIAMS' HEIRS

Wanted by a Virginia Man—A Letter of Inquiry is Addressed to Clerk O. C. Larason.

County Clerk O. C. Larason has received the following letter from William M. Groves, of Bealeton, Fauquier county, Va., asking for information regarding one Fielding Williams or his heirs. "Mr. Groves in his letter says: 'Mr. Fielding Williams left Fauquier county, Va., with three or four sons some years ago, and settled in Licking county. I am looking for his heirs, and if you know anything of his sons, or any one of them, please send me their names and addresses, or kindly hand them this letter, and tell them they will hear of something to their advantage by writing to me at Bealeton, Va. There is a piece of land here that once belonged to Mr. Williams, and no record of its transfer to any other party has been found. Two persons are about to have a law suit over it, and if the heirs will write me I think I can put them in the way to recover it.'

Savage company. The party left Newark at 6 o'clock in Mr. Harrigan's private car, which made the run to Columbus as a special. This is one of the most beautifully appointed private cars of the kind in use in the United States, and the trip to the capital city was made with much pleasure and comfort. Returning to Newark, the special again made a fine run and the guests were served with a buffet lunch. The young people of the Baptist church celebrated Washington's birthday by giving a reception to the members of the church and their friends. The house was profusely and beautifully decorated with flags, pictures and other relics. Under the skillful and artistic hand of the pastor of the church the spacious rooms presented a cheery and inviting appearance. A large number had responded to the invitation to come in costume, representing historic and picturesque characters, not only of America, but of many foreign nations. Many of the costumes were beautiful and elaborate. There were wedding gowns, new and old; pins, bonnets, manillas, shawls and laces of generations past. Special mention should be made of the beautifully embroidered Japanese robes and genuine Burman and Karen costumes. After all had been presented to George and Martha Washington and the others in the receiving line, all those in costume, under the generalship of Mr. E. T. Rugg, made the circuit of the rooms, thus affording the large company a close inspection of the lovely and bizarre figures. Light refreshment was then served and a social hour with music and recitations interspersed, was most delightfully spent. In fact, all present pronounced this reception the jolliest and merriest one they had attended this season.

Former Granville Man Now Head of Chicago University is in Serious Condition.

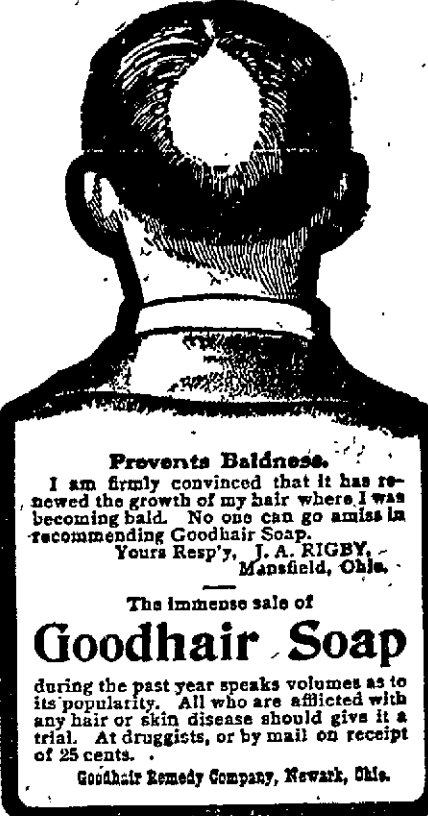

A press telegram from Chicago to The Advocate Saturday says:

MR. GLASSMEIR

Pulled Hanover Man from the Railway Track in Time to Save His Life.

A young man from Hanover, whose name could not be learned, had a narrow escape from a horrible death Saturday. The young man, who had been in the city, attempted to board the first section of Paw Handle train No. 8, when he slipped and fell. He retained his hold on the car, however, and was dragged some considerable distance. Officer Glassmeir caught the man and jerked him from the track just in time to save his life.

AUTOMOBILES

JAMES MILLS IS AGENT FOR THE CADILLAC.

In New York City Alone There Are 3500 Cadillac Cars in Use—Read His Advertisement.

Mr. James Mills, the well-known automobile dealer, whose advertisement appears in this issue in preparation for the coming season's business, has most of his 1904 stock now on hand. His bicycle department is still one of the most important. The bicycle business is still alive and more bicycles were sold last year than ever before. Mr. Mills handles the old reliable lines, such as Columbia, Crawford and Rambler.

In the automobile business he has already had four years' experience. After deciding to enter the business this season he made a study of all machines on the market, and was able after much effort to secure the agency for the machine of his choice, the "Cadillac," manufactured by the Cadillac company of Detroit. The Cadillac, which is built on two models, A and B, is a gasoline machine which has proved its durability and inexpensiveness time and time again, and the owner of this machine is secured against suits for infringement of patent.

Mr. Mills sells the model A for \$750 without the tonneau, and guarantees it to be the equal of any \$1,500 car on the market. Five gallons of gasoline will run the machine 160 miles, while the simplicity of the mechanism and its easy manipulation has made it popular with all classes. In New York City alone 3,500 Cadillac cars have already been sold.

Mr. Mills was the first man to bring a successful steam car into the city, he was the first man to bring a successful electric car here, and he has now given to Newark people the first successful gasoline car which will stand every test. Those who contemplate purchasing a machine can do no better than to examine the "Cadillac." Purchasers at Mills' store will not only show their loyalty to a local business venture, but will have the advantage of a splendid repair shop, especially equipped for repairing Cadillac machines in their own city.

Mr. Mills also deals in all kinds of automobile supplies.

Any one in Newark who contemplates purchasing an automobile should talk to several who have already gone out of town to buy and profit by their experience and get the machines at home from a resident dealer.

Mr. Mills has testimonials from a number of Newark men who drive machines purchased from him and in every case they express absolute satisfaction.

Seventeen persons in a hundred in the state of New York live to be over seventy years of age.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh be sure you get the genuine. It is taken internally and is made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Hall's Family Pills are the best.

When Your Cold Catches You Just There

There is No Time to Wait.

It is not a "little thing." It's a deadly thing. It will not "get well by itself" if you let it alone. Whiskey and quinine and such things brace you up for the time, but they don't cure you.

Ask any intelligent doctor why you catch cold so easily. He will say, "Because you are a bit run down." He means that the force which nature placed in your body to keep out disease germs—the resistive force—is weakened. The door is open a little way toward disease.

There is not a graveyard in any cemetery in the world caused by consumption or pneumonia or any lung trouble whatever, which did not start with what you call "Nothing but a cold."

A cold should not be beaten back or drugged over—it should be cured, and the general health should be built up.

ACKER'S ENGLISH REMEDY

should be taken at the first symptoms of cold. It is a tonic for the whole body, a specific for sudden colds, coughs or sore throats. It doesn't matter where the cold is or how it got there, we know that **Acker's English Remedy** will reach it and cure it. It is sold on a positive guarantee.

NO CURE NO PAY. If you have a cold—no matter how slight—it means something. Take **Acker's English Remedy** at once. Keep it in the house. If it does not relieve you almost instantly, we will refund you the price paid.

"**Acker's English Remedy** saved my life. A cough, slight at first, grew constantly worse and I finally had to give up my work in the Knife Factory at Walden. I had frequent bleeding spells. Was examined by local doctors, prominent physicians in New York and at a Medical College. They all pronounced my case hopeless. I began using **Acker's English Remedy** and a few bottles cured me. I am today a perfectly well man."

Whiskey and Beer Habit

PERMANENTLY CURED BY

"ORRINE,"

ABSOLUTELY SAFE, SURE AND HARMLESS.

Physicians pronounce drunkenness a disease of the nervous system, creating a morbid craving for a stimulant. Continued indulgence in whiskey, beer or wine eats away the stomach lining and supplies the digestive organs, thus destroying the digestion and raising the health. No "will power" can heal the inflamed stomach membranes.

"ORRINE" permanently restores the craving for liquor by acting directly on the affected nerves, restoring the stomach and digestive organs to normal conditions, improving the appetite and restoring the health. Can be given secretly if desired.

Cure Effect or Money Refunded.

Ask your druggist whom you know what he thinks of ORRINE; he will endorse our statements as truthful in every respect. If ORRINE fails to cure we will refund you every penny paid for it as cheerfully as we took it.

No Sanitarium Treatment or Publicity!

No Absence from home or loss of time!

Mothers, wives and sisters, you cannot cure those who are afflicted with this most terrible of all diseases by your fervent prayers, or eyes red with tears, nor by your hope that they may stop drinking. It can be done only with ORRINE. You have the remedy—will you use it? If you desire to cure without the knowledge of the patient, buy ORRINE No. 1. If the patient desires to be cured of his own free will, buy ORRINE No. 2. Full directions found in each package. Price \$1 per box.

We will gladly furnish a treatment free of cost to any physician to demonstrate that ORRINE is a positive specific for drunkenness.

THE TREATY ALLIANCE.

Tokio, Feb. 27.—The treaty alliance between Japan and Korea which was signed on Feb. 23, it is ascertained, guarantees independence and integrity to Korea, and also provides that Korea shall have Japan's assistance in reforming the internal administration of the peninsula empire. There is nothing in the instrument which intimates that Japan shall have armed assistance from her ally, but even should such be stipulated or arranged as has been intimated it would, the Korean assistance would not be a great addition to Japan's fighting power.

NEWS OF THE STATE AND NEIGHBORHOOD

WENT WEST WITH INTENTION TO ANNIHILATE WILD INDIANS.

This Marion Lad of Twelve is Arrested in Indianapolis after a Strenuous Career.

Marion, O., Feb. 27.—The mystery surrounding the supposed kidnapping of Cyril Guthrie of this city, has been cleared by the lad's arrest in Indianapolis.

The lad who is but twelve years of age, was apprehended in the Indian capital, with a plentiful supply of dime novels and a big revolver in his possession, and is being held for the Marion police.

Guthrie confesses to having written the anonymous letter to his uncle, Charles Anthony, threatening to burn down his home and do bodily harm to the family if \$75 was not forthcoming at a stated period.

The boy said that he wanted the money to enable him to get out west, where several score of Indians were awaiting their execution at his hands, and thought his uncle would follow the instructions mentioned, above his skull and cross bones signature, to the letter.

He also admits committing the series of burglaries in his uncle's residence, in which several watches, the revolver found in his possession, and a small sum of money were secured.

BOTTLED SUNSHINE

Scott's Emulsion brings sunshine to the entire system of the consumptive.

All life is sunshine. The sun pouring its rays into the plant combines earth, water and air into new plant tissue. Sunshine stored up in the plant is its life.

The animal changes plant tissue into animal tissue, changes the stored up sunshine of plant life into animal life.

Fat contains more stored up sunshine than any other form of animal tissue. This is why Scott's Emulsion of pure cod liver oil is literally bottled sunshine, full of rich nourishment and new life for the consumptive.

Deputy Sheriff Wm. Linke, County Jailor Holly Jamison, accompanied Chief James Sheridan, of the city police and Officers Swank, Hager and McClure to the Brumback school house near Jacksonstown Friday night on information that a gang of tramps had broken in the school house and were

annoying the neighborhood. The officers surprised three fellows asleep in the building and brought them to Newark. They gave the names, Mike O'Brien, John O'Neil and Peter Baker. Affidavits will be filed against the trio charging them with breaking into the school house.

Chief Sheridan has received a communication from Chief O'Neil of the Chicago Detective Bureau, asking that he be notified if any person left this county to go to Chicago as a witness in the Harvey Van Dine murder case. MANAGER DEXTER'S EXPERIENCE

After suffering most intense agony with a very severe cold in the head, accompanied by fever, commonly known as hay fever, and being unable to obtain any relief from the many so-called cures, I secured a bottle of Father John's Medicine. Before retiring that night I took a large dose of the same and slept better than I had any time during the run of the disease. The next morning after awakening, I discovered that the cold and the fever had entirely disappeared. Undoubtedly, the medicine had found its way to the seat of the disease and killed the germs. My son Alvin was in a frail condition and your medicine built him up and made him well and strong.

I write you this letter without solicitation, hoping that you may use it in your advertising matter, and that the public at large may know that there is a valuable remedy in Father John's Medicine that will cure the hay fever. (Signed) A. H. Dexter, former manager Grand Opera House, Bowdoin Square Theatre, Boston, and Lynn, (Mass.) Theatre.
